

Deepak Varma Chamarthi

Azure Data Engineer | +91-8951281235 | Deepakvarma0621@gmail.com

SUMMARY

Results-driven Azure Data Engineer with 3 years of IT experience and hands-on expertise in Azure Data Factory (ADF), Azure Databricks, Azure Synapse Analytics, and Azure Data Lake Storage (ADLS Gen2). Experienced in scalable ETL/ELT pipelines, Delta Lake, data migration, data warehousing, performance optimization, PySpark, Spark SQL, Azure DevOps CI/CD, Azure Key Vault, and enterprise-grade banking and financial-services data platforms.

TECHNICAL SKILLS

Cloud & Big Data: Azure Data Factory, Azure Databricks, ADLS Gen2, Azure Synapse Analytics, Azure SQL Database
Programming & Querying: Python, SQL, T-SQL, PySpark, Spark SQL

Data Engineering: ETL/ELT, ingestion, transformation, orchestration, scheduling, monitoring, Delta Lake

Data Modeling: Star schema, snowflake schema, dimensional modeling, schema evolution

Optimization: Partitioning, caching, cluster tuning, Delta optimization, SQL indexing

Delivery & Reporting: Git, Azure DevOps CI/CD, Power BI, JSON, Parquet, SSIS, SSRS

WORK EXPERIENCE

Associate Data Engineer | Pentagram Infotech Private Limited | Client: Capgemini | Oct 2024 - Present

- Developed and optimized Azure-based ETL pipelines for structured and unstructured data.
- Built PySpark transformation workflows in Databricks for scalable processing and integrated curated data with ADLS and Azure SQL Database.
- Designed automated ingestion and transformation pipelines, optimized SQL queries, and collaborated with business teams on data accuracy, reliability, and technical requirements.

PROJECTS

Enterprise Function Technology Platform Management | Azure Data Factory + Databricks

- Designed and maintained end-to-end pipelines using ADF, Databricks, ADLS Gen2, and Key Vault.
- Migrated on-premises SQL Server data to Azure SQL and Data Lake using Self-Hosted Integration Runtime and ADF.
- Extracted, cleansed, and transformed REST API, CSV, and RDBMS data using PySpark and SQL.
- Created metadata-driven pipelines and stored procedures for reusable workflows; automated alerts with Logic Apps and ADF triggers.
- Performed PySpark data validation and streamlined CI/CD pipelines in Azure DevOps for reliable deployments.

Prime Brokerage | Delta + PySpark

- Developed streaming and batch data processing pipelines and integrated results into Power BI dashboards.
- Used Azure Blob Storage, Azure SQL Database, and ADLS to build secure banking analytics data platforms.
- Designed data warehouse solutions and complex SQL transformations for analytical models and reporting datasets.
- Integrated Logic Apps with ADF for migration alerts and proactive monitoring.
- Performed SQL Server scheduling, monitoring, maintenance, indexing, partitioning, and performance tuning.
- Applied Agile/Scrum, Azure Boards, Git, TDD, and CI/CD practices across ETL and data-solution delivery.

EDUCATION

Madanapalle Institute of Technology & Science | B.Tech - Electronics and Communication Engineering | CGPA: 8.53/10 | 2020-2024

CERTIFICATIONS

- Microsoft Azure AI Fundamentals (AZ-900) - Microsoft
- Google Data Analytics Professional Certificate - Coursera
- Certified Data Analyst - IABAC
- SQL Certification - HackerRank

EXTRACURRICULAR

Event Coordinator: Organised hackathons and technical events (50-200 participants) and coordinated a college blood-donation drive.
